

Our Mission

Helping You Keep
Your Loved One at Home

Home Aides of Central New York offers a variety of ways to help you or your loved one stay in the security and comfort of home. Whether providing 24-hour care, assisting with recovery from an injury or illness, or simply helping with daily living tasks, our team of nurses and skilled home health aides can help. You or your loved one's comfort, care and safety at home are our primary concern.

Call us today to learn how we can help those you love live at home with dignity and independence.

HomeAides

of Central New York

Funded in part by federal, state and local
(Onondaga, Oswego, and Madison) Offices on Aging.

As a family, making decisions about the care of your loved one is so important. At Home Aides of Central New York, we understand how difficult and confusing a time it can be. Helping individuals live lives of dignity and independence has been the mission of our non-profit organization since 1966.

Our Caregivers

We are very proud of the individuals we employ to care for your loved one. Many of our employees have made it their life's work to care for others. All of our caregivers are carefully selected, screened, and trained in our 13 day training program certified by the New York State Department of Health. We conduct criminal background checks, drug & alcohol screenings, check work history and fingerprint all caregivers. They are also fully insured and carefully supervised by a registered nurse.

Our Promise

At Home Aides of Central New York, we are here to help you determine the right solution for your family. Our competent, compassionate, and well trained home health aides will provide you and your loved one with reliable home health care services. For more information or to sit down and discuss your family's care, call or visit us today.

"My mom has Alzheimer's disease and my sister and I are exhausted from caring for her every day."

"My wife has become so unsteady on her feet, she really needs help getting in and out of the shower."

"Dad's home alone all day. What if he falls and can't get to the phone to call for help?"

Our Services

Nursing Service

A registered nurse works with your family to determine the services needed, develops a care plan for the aide to follow, monitors the condition of the person receiving the service, supervises the aide activities within the home, and provides updates to family members and physicians.

Home Health Aide Service

Certified Home Health Aides provide assistance with daily living activities such as bathing, dressing, other personal care tasks, and medication reminders.

Homemaker Service

Aides assist with tasks such as grocery shopping, laundry, and light housekeeping. This help may be all that is needed to keep someone independent at home.

Companion Service

Aides visit your loved one during the day to cheer them up and provide reassurance that a caring person is checking in on the situation.

Caregiver Respite Service

Full-time caregivers get a break from their round-the-clock responsibilities with respite services. In-home aide service or temporary placement in an adult home or nursing home gives caregivers the break they need.

Philips Lifeline® Medical Alert Service

A medical alert service enables a person to reach friends and family for help 24 hours a day, with just the push of a button.
